About the Funkygraphic collection

Characterised by originality and high fashion impulses, Funkygraphic is an expression used to define ege's latest state-of-the-art collection. A completely new highline express collection reflecting current trends and making it easy to create innovative interiors. Funkygraphic is divided into five major colour moods, each representing a number of different designs which can be combined according to individual style. A new colour palette, consisting of 12 new funky colours all complementing one another in new ways, forms the foundation of the entire collection. Whether it being bold colours or muted designs. All designs in the collection are developed on the basis of a graphical retro style, spiced with oblique angles and new ways of seeing things. In other words, Funkygraphic is trendy, hip and all the way through an unconventional collection.

Duo Tone

Fade to Gray

Jungle Fever

In the trendy ecological restaurant, an encounter between nature and culture takes place. An encounter staged by modern man in an attempt to invite nature in for a bite of cultural delicacies such as green tea and healthy tapas. The table is set, and in small bowls, nature's own shades of green and brown blends with the red and turquoise patterns of the china.

The atmosphere is dynamic and energetic.

The gardener meets with the architect for lunch and they discuss everything from sustainability to the geometrical shapes and curves of nature.

A feeling of energy, well-being and global care fills the space.

In this universe, culture and nature have merged into a unified whole in the most natural manner.

Purple Haze

The city's new cultural centre is buzzing with life. And from the back row in the intellectual cinema, countless alternative films and apocalyptic performances can be experienced. The air is filled with excitement and mystery, when spectators are exposed to everything from occult action dramas to velvety love stories on the silver screen. Here, stories are shaped in front of crowds of masculine and feminine spectators. Stories, which similar to the colours purple and violet, express seriousness and reflection. Profound movies forming a life of their own after the fall of the curtain – even in the contemporary metropolis, where flashing lights and constantly repeating sounds compete to wake the ever-dreaming cosmopolitan.

Colour Spot

From the studio at the 11th floor, the view acts as a true bombardment of inspiring senses. Neon-flashing night clubs and fashionable office buildings tangled with colourful avant-garde theatres and throbbing fitness centres. The city with millions of people is filled with contrasts.

From authentic, cultural history to self-staged drama. Open-mindedness and room for festive colours such as pink and red combined with cool shades of turquoise and beige. It is the charm of the city. Abundance of colours in a pattern of people. A pattern which seen from above resembles brilliantly coloured dots swarming around in a neatly organised system. The city – a multiplied organism with an activity level exceeding any normal pulse rate.

Duo Tone

At the end of the avenue, a hip lounge is playing chill-out rhythms while serving its guests foods from all quarters of the world. It is the place to network, to read the latest fashion magazines or to spot the latest trends. It is the place where new tendencies take form and where creativity blossoms. The place where wildness thrives and where combinations of red and pink suddenly are perceived as funky, not fatal, colour combinations. It is the place where strong tone-on-tone colours symbolise style rather than unimaginative designs. The style is daring, yet minimalistic. Patterned and courageous. Retro graphical – in a new era. Simply, a lounge in which old and new trends collide and together become the future. An encounter between plus and minus not causing short-circuit.

Fade to Grey

Everywhere, people are in motion. Whether it be on the way to the next business meeting, running to catch the last plane, or moving at a determined pace towards the duty-free shop. On a daily basis, thousands of people pass the international airport. Hurried individuals rushing around in every direction. Individuals trained to regard the buzzing surroundings as a fading background. A background not demanding attention, yet vibrating in the world of each person. It is neither trivial nor dull, it is rather exclusive and powerful. More techno than grey. More Havana than brown. The ceiling in the international airport is high. Here, Scandinavian design virtues, such as simplicity and functionality, are dominating forces making room for global thoughts.

The Funkygraphic colours, palette 5275

Ground colours

Accent colours

For use in areas of max. 10x10 cm

Recolour

1. Select design (chosen designs from the collection)

2. Create your individual colouration by using the following colour options:

- The Funkygraphic colours, palette 5275
- all other standard palettes
- custom colours
- special colours

3. Change ground colour, choosing between GB 1-12

4. Change pattern colours, choosing between GB 1-12 and accent colours 13-47

About Funkygraphic

The Funkygraphic collection is a modern collection, reflecting current trends and making it easy to create innovative interiors. The collection is divided into the 5 major colour stories; Jungle Fever, Purple Haze, Colour Spot, Duo Tone and finally Fade to Grey. Through these 5 stories 27 different designs are presented in various colour combinations.

All this with:

- Recolour options (see p. 81)
- No minimum order requirements
- 8 standard qualities (see technical specifications p. 83)
- Undisputed performance standard EN 1307
- Performance classifications to fit any need; heavy & extra heavy use
- 24 hours sample service
- Dispatch within 2 weeks

The collection is developed in ege's standard colour palettes making recolouration possible for all designs. The Funkygraphic collection contains some standard patterns in which blend colours are used. Solid and blend colours are shown in colour codes beneath each pattern.

Colour codes GB1-12 equal solid colours and colour codes AC equals blend colours. Only patterns using solely solide colours (GB1-12) are available in the Highline Loop E16 quality. If you require a pattern using blend colours in Highline Loop E16, this will require a production trial run prior to final production. Patterns containing blend colours are marked with the symbol , indicating that a trial run is necessary.

Please note that both standard and special designs, with large uni-coloured areas, in Highline 80/20 1100, Highline Loop and Highline Loop E16 might require an approved production trial run prior to final production.
