

VISUAL TEXTURE

CONRAN&PARTNERS

Designer Collection by

ege[®]

THE URGE TO EXPLORE SPACE

Inspired by Life, Designed by Conran, Manufactured by ege.

The Visual Texture Collection

The objective of the Visual Texture collection is to both reflect the classic Conran design ethos, and showcase ege's unique technology and exceptional service. This has been achieved in the creation of a range with what we feel offers real visual depth & texture. Offering immense flexibility and breadth, the collection includes highlight features, borders, corridor and runner solutions as standard for almost all the designs offered. Inspirational, aspirational, original and practical are the core qualities we aimed to engender.

Designed in London by Conran & Partners, and manufactured in Denmark by ege, the collaboration has allowed a rare freedom in the design of floor covering. After meeting ege's technologists and understanding the vast possibilities allowed by working with such innovative manufacturing techniques, the Conran design team set out to meticulously research the process of digital dying with the desire to really explore the opportunities the technology offers.

The needs and wants of users and specifiers were investigated, including consultations with several leading interior designers and key personnel from the hotel and restaurant industry. As expected, there were many differing opinions on stylistic design but one fundamental commonality; that it is imperative to consider the practical issues, such as wear and ease of cleaning, as part of the design process to ensure that the inspirational designs keep their freshness.

The specially developed Colour Shades have allowed us the freedom to design a broad & eclectic range with a multitude of inspirations, ranging from nature to 20th century art. For special projects the designs can be scaled and customised to suit a client's specific need based on the size, shape and style of their application. We have carefully considered all areas of usage, from dining and reception through to corridors and bedrooms to ensure all aspects of the specifier's requirements are met. And the ege team have been a joy to work with and deserve a huge amount of credit for all the hard work and commitment they have given the project.

This enigmatic, bold design perfectly displays the beautiful tonal qualities of the new textured 'Colour Shades' developed specifically for this range. The layered appearance of the soft floating forms gives depth and is at once familiar yet mysterious. The two scales available will impart style and impact to any interior scheme. To complete the look corridor and runner designs are also available and Cells comes in five elegant colourways.

Cells

Standard colourways: Berries, moss, gold, ocean and charcoal

Medium:	97.5 x 97.5 cm
Large:	195.1 x 195.1 cm
Runner:	133.0 x 260.4 cm
Corridor:	200.0 x 195.1 cm

Evoking the strength and linearity of a bamboo forest, this is a particularly useful design to emphasise direction or increase the sense of width or length in a space. The hand-drawn quality of the lines and soft structuring of the colours temper the overall effect, producing a design, which can be used in many situations without overpowering an overall scheme. Corridor and runner designs are available and Bamboo is offered in five colourways.

Standard colourways: Blue, gold, green, stone and red

Scale repeat:	78.2 x 71.9 cm
Runner:	133.0 x 391.6 cm
Corridor:	200.0 x 391.6 cm

The showy Agapanthus flower, with its exuberant exploding flower heads is the basis for this equally joyful pattern. The Digitised flowers seemingly explode underfoot in energetic outbursts, evoking a joyful sensation of firework displays and delight. This pattern has the confidence and boldness to bring energy and pleasure to any environment. Available in one bold scale and four rich colourways.

Agapanthus

Standard colourways: Blue, earth, deep purple and rouge.

Scale repeat: 16.7 x 73.2 cm

Runner: 133.0 x 109.7 cm

Corridor: 200.0 x 109.7 cm

Chalkboard

The hand-drawn line quality of the motif softens the regimented design, giving an eminently usable pattern in subtle, structured tones. Chalkboard is smart but soft, and equally at home in both corporate or hospitality environments; an ideal choice where a subtle, chic pattern is required. Chalkboard comes in five standard colourways; corridor and runner designs are also available.

Alternative Stripe

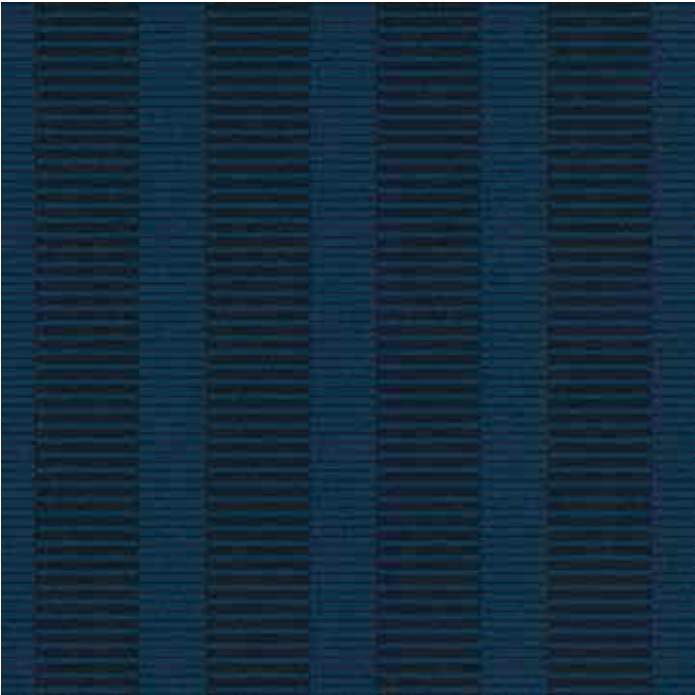

Alternative stripe is a classic binary pattern in solid tonal colours, making it suitable for many applications but particularly useful for office and work environments.

The design is available in two confident scales for both small and large areas and there are also runner and corridor designs available in standard widths. The five varied colour options, from discreet grey to bold gold are sure to be suitable for most interior schemes.

Standard colourways: Blue, gold, green, grey and red		
Medium:	32.5 x	19.6 cm

Scrawl

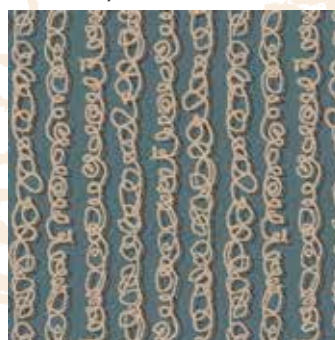

Unmistakably human, the naive spiralling loops of chalky lines seem to float above an expanse of muted solid colour. The massive scale of the runner and corridor designs displays the chalky, disintegrating edge of the line; a joyful invitation to follow the direction of the loops as if playing a child's game. Scrawl is available in two companion scales, the smallest of which is almost textural in appearance, plus runner and corridor designs. It is offered in four standard colourways.

Standard colourways: Blue grey, plum, stone, rust

Small:	48.8 x 54.2 cm
Large:	97.8 x 108.5 cm
Runner:	133.0 x 878.1 cm
Corridor:	200.0 x 878.1 cm

Arcade

This intriguing geometric design uses simple pixel-like motifs inspired by early arcade games to deliver a chic digital effect. Arcade is available in two variations; a two-tone filled pattern or a simpler line option for a more subtle look. Both variations are available in two scales and in addition there are runner and corridor designs, giving a wide choice for a cohesive look.

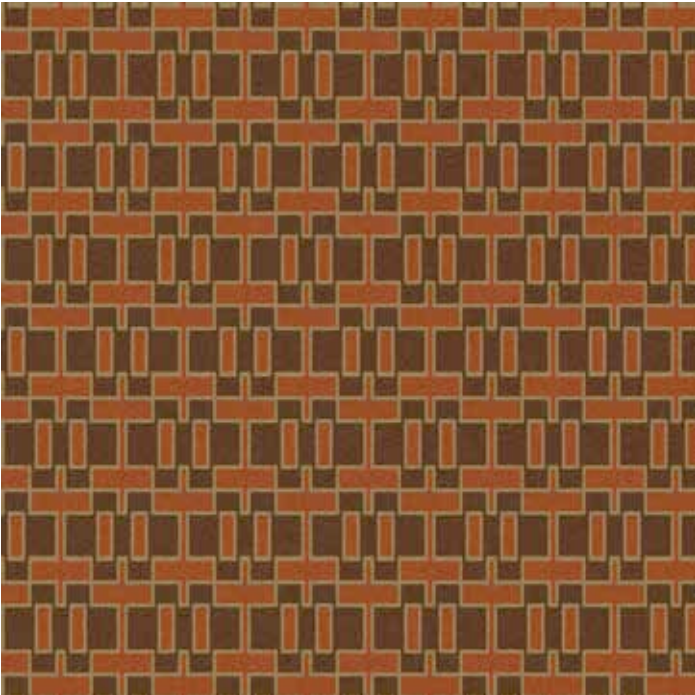

There are four contemporary colourways to select from which have been especially developed for this pattern.

Standard colourways: Grey-blue, orange, pale green and purple.

Small:	12.2 x 18.3 cm
Medium:	24.4 x 36.6 cm
Runner:	133.0 x 18.3 cm
Corridor:	200.0 x 18.3 cm

Biogram

Organic forms appear to float on the surface of the carpet, producing a calm impression, which is further reinforced by the tonal colours used. The runner and corridor designs continue the mood, with the pattern drifting down the centre, leaving a plain border. Biogram is also available as a highlight design feature to give a visual 'change of pace' and emphasise selected areas. It is available in four colourways.

Influenced by the work of Charles and Ray Eames, these lively, dancing 'double dots' make up an animated, playful design. Available in three rich hues with contrasting highlights to give added depth, plus two exuberant multi-coloured combinations, this is a pattern, which can be used successfully in a wide variety of environments, from grand hotels through to cheerful play areas. Double dot is also available as a complementary runner and corridor design.

Double Dot

Standard colourways: Blue, red, green, multi-dot, candy-dot

Scale repeat:	129.5 x 136.9 cm

Wakame

Inspired by loose, free floating forms; the interlocking, soft shapes of this pattern work particularly well with the subtly structured Colour Shades developed by ege specifically for the Visual Texture range. Offered in two scales, a discreet small version and bolder, larger design plus an impressive corridor and runner design, Wakame is an eminently versatile and useful pattern. Available in four tonal colourways.

The ultimate utility carpet! This honest pattern is both quirky and practical. The boot- and paw-prints are used as motifs; scaled and layered in tonal variations to give an overall effect that tells a tale of the multitude of people (and animals!) that have been there before. A particularly forgiving and light-hearted design, suitable for many applications, Man & Dog comes in three standard colourways and complementary runners and corridor designs are also available.

Standard colourways: Earth, green and purple

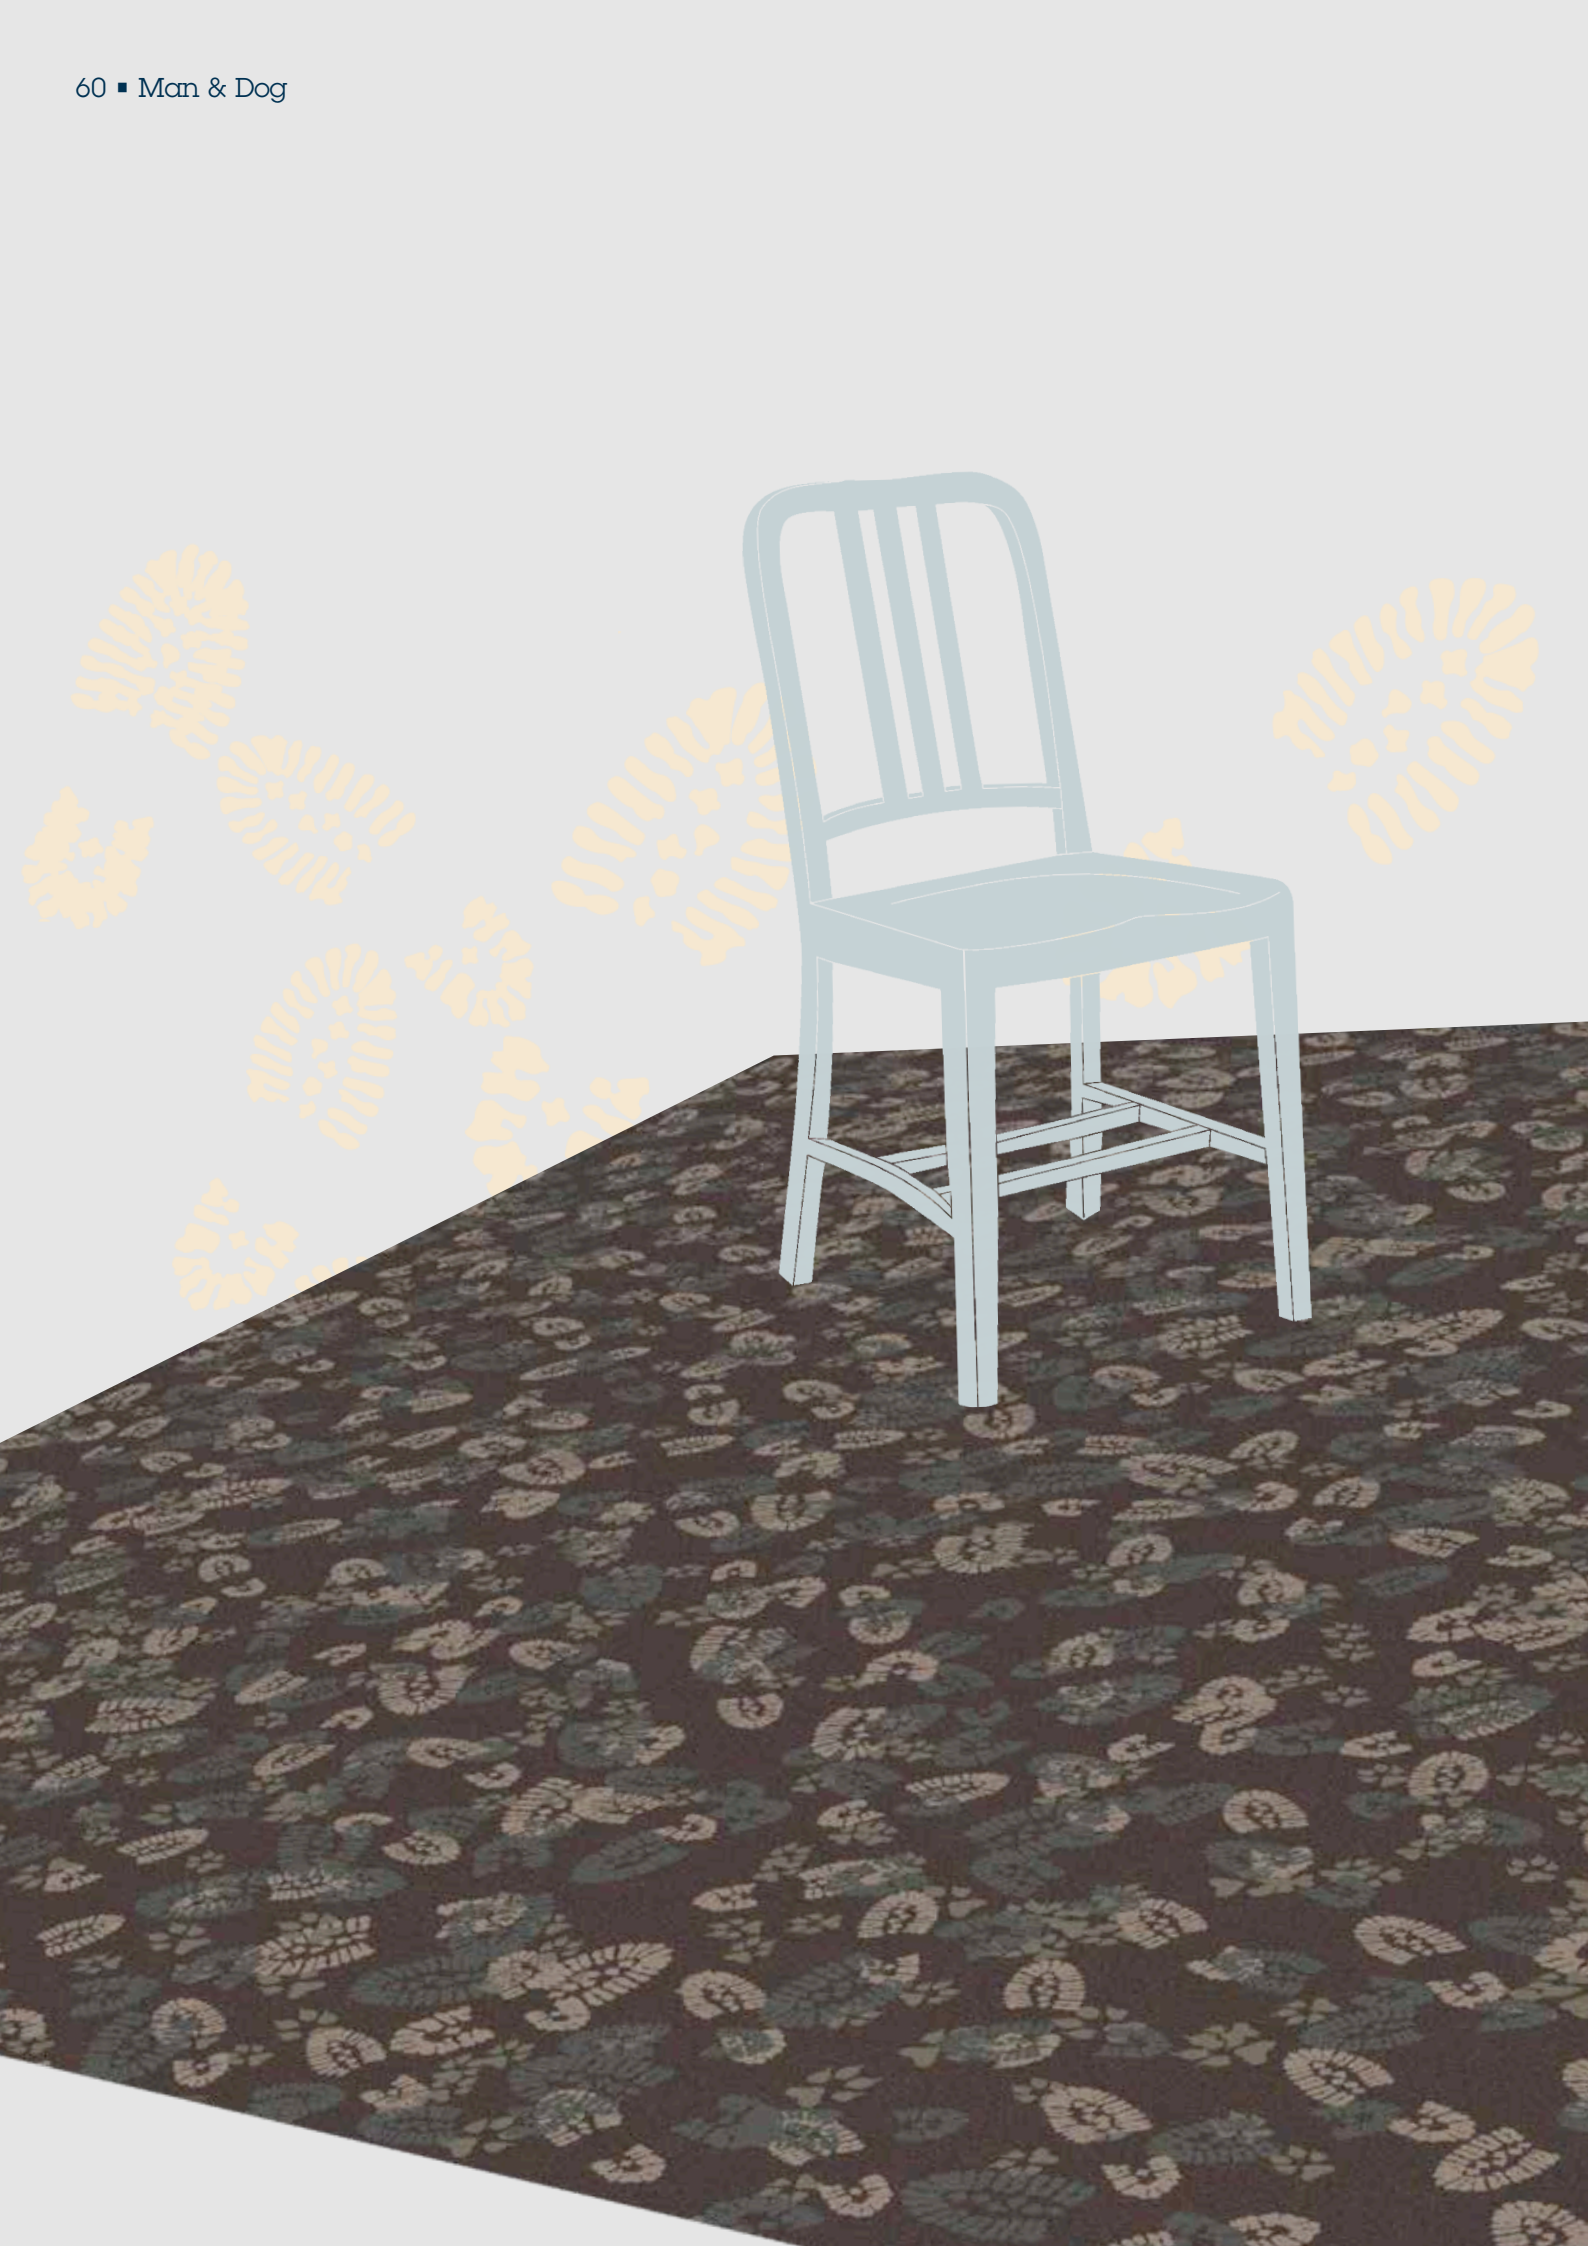

Scale repeat: 195.1 x 195.1 cm

Jungle

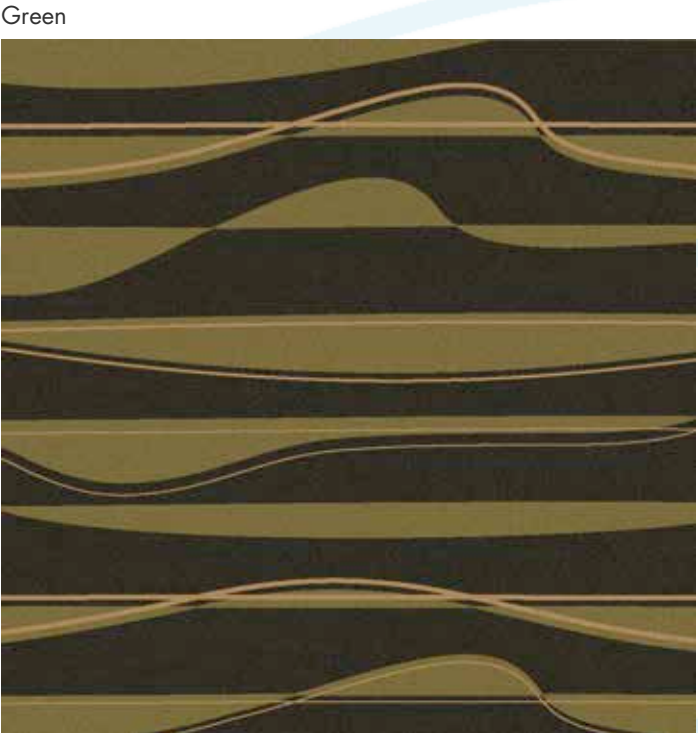

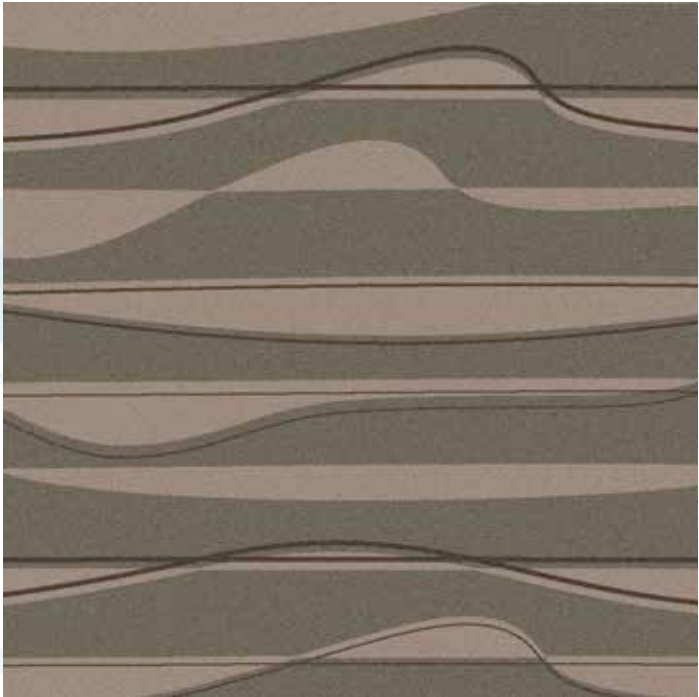

Beautifully capturing the exotic and lush vegetation of the equatorial regions of the world, this flowing pattern represents the dense and intriguing canopy, which forms a continuous layer made up many diverse broad leaved plants. Available in a large scale appropriate to the pattern's jungle origins and a smaller complementary size, with additional corridor and runner designs, Jungle is presented in three beautiful tonal colour combinations.

Standard colourways: Blue, green, stone

Small:	55.9 x 63.3 cm
Large:	195.1 x 221.5 cm
Runner:	133.0 x 195.1 cm

Corridor:	200.0 x 604.5 cm

Interference Spot

A decidedly graphical design, Interference Spot uses a simple bold motif in tonal colour combinations to create a pattern, which although definitely not timid, is also not overpowering. The design is available in two scale variations, a confident large scale with contrasting dynamic lines perpendicular to the main pattern and a more discreet smaller scale, plus a magnificently bold corridor and runner design. Used together the various elements from this pattern will most definitely give a classic contemporary feel.

Morse

Dots and dashes run under your feet and speed across the surface of the subtly structured carpet. Morse is a vivacious pattern filled with crackling energy and this is reflected in the colour options available, from electric blue through to vivid green. The bold, directional corridor and runner designs lead you along; following the enigmatic route of the message.

Standard colourways: Berries, electric blue, natural, vivid green

Scale repeat: 97.5 x 55.9 cm

Runner: 133.0 x 511.6 cm

Corridor: 200.0 x 511.6 cm

Hollow Dot

This stylishly neo-trad design utilises to great effect some of the beautifully subtle Colour Shades created by ege especially for the Visual Texture range. From muted plum to deep purple, these colour combinations have been specifically developed to give depth and be compatible with contemporary colour schemes. The choice of six colourways, combined with the smart, rhythmic design, which includes corridor and runner designs, gives a pattern family which will effortlessly enhance any interior.

Nori

Geometric interlocking bristles vibrate against each other in this almost three-dimensional pattern. The bold main pattern can be used alongside its simpler, smaller scaled counterpart to add rhythm and interest to an interior scheme. The main pattern is presented in four sophisticated two-tone colourways and the complementary pattern is offered in a simpler, single tone in light and dark shades selected from the main pattern. Also offered is a distinctive off centre runner and corridor design.

Main pattern;

Standard colourways: Green, rust, grey, stone

Scale repeat, main pattern: 39.1 x 68.3 cm

Runner: 133.0 x 126.9 cm

Corridor: 200.0 x 126.9 cm

Complementary pattern;

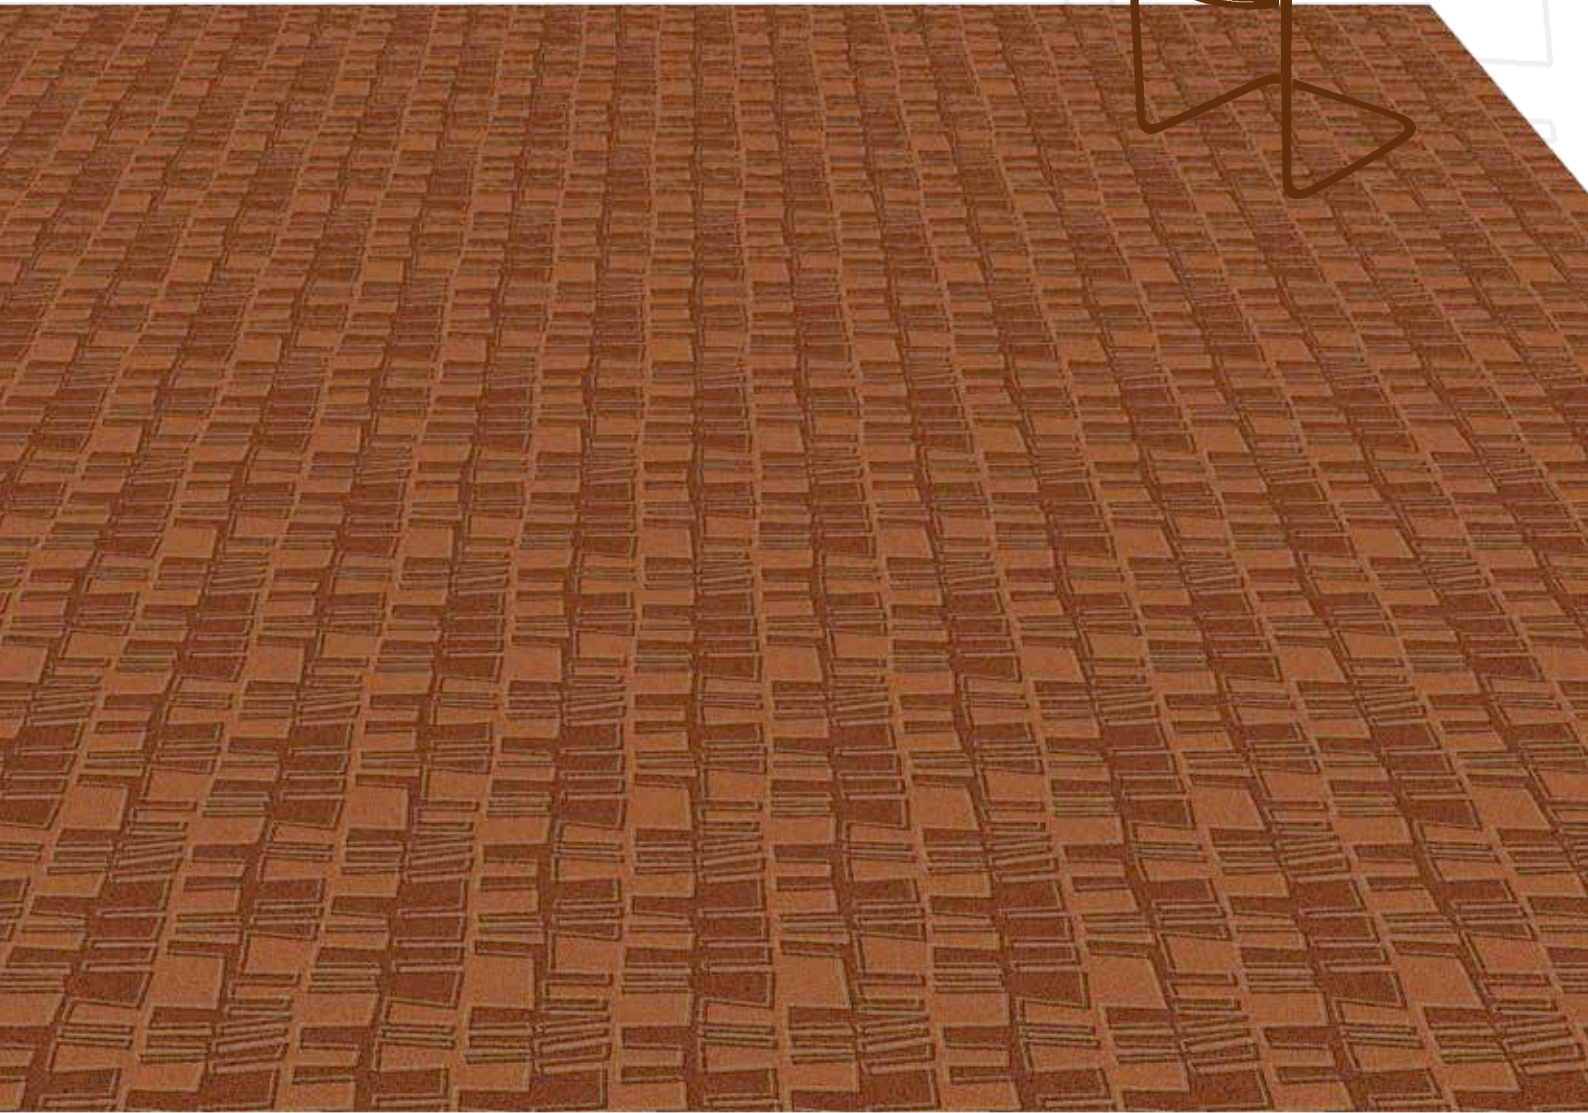

Standard colourways: Green (light & dark), rust (light & dark), grey (light & dark), stone (light & dark)

Scale repeat: 24.4 x 36.8 cm

Repeated large circles are placed against a neutral colour under delicate chalky parallel lines to create a classic contemporary design. Circle pinstripe is available in two variations, a more prominent style with a solid filled background and a lighter, understated style using circles constructed of lines, especially useful for areas where less visual impact is required. A smart contemporary design, which is completed by the addition of a large scale runner and corridor designs. Circle pinstripe is available in four standard colourways.

Circle Pinstripe

Pattern, prominent style

Standard colourways: Blue, green, plum, stone

Knot

Linear chains of numerous knotted ropes create a multi-layered, multi-tonal pattern of intriguing depth. The links of colour and wide irregular strips of tonal depth create a handsome, easy to live with pattern, which is available in a wide range of colours to fit with most interior requirements. A decidedly directional design, Knot can be used to attractively emphasise width and direction. Available in five colourways (including two multi-coloured variations) plus corridor and runner variations.

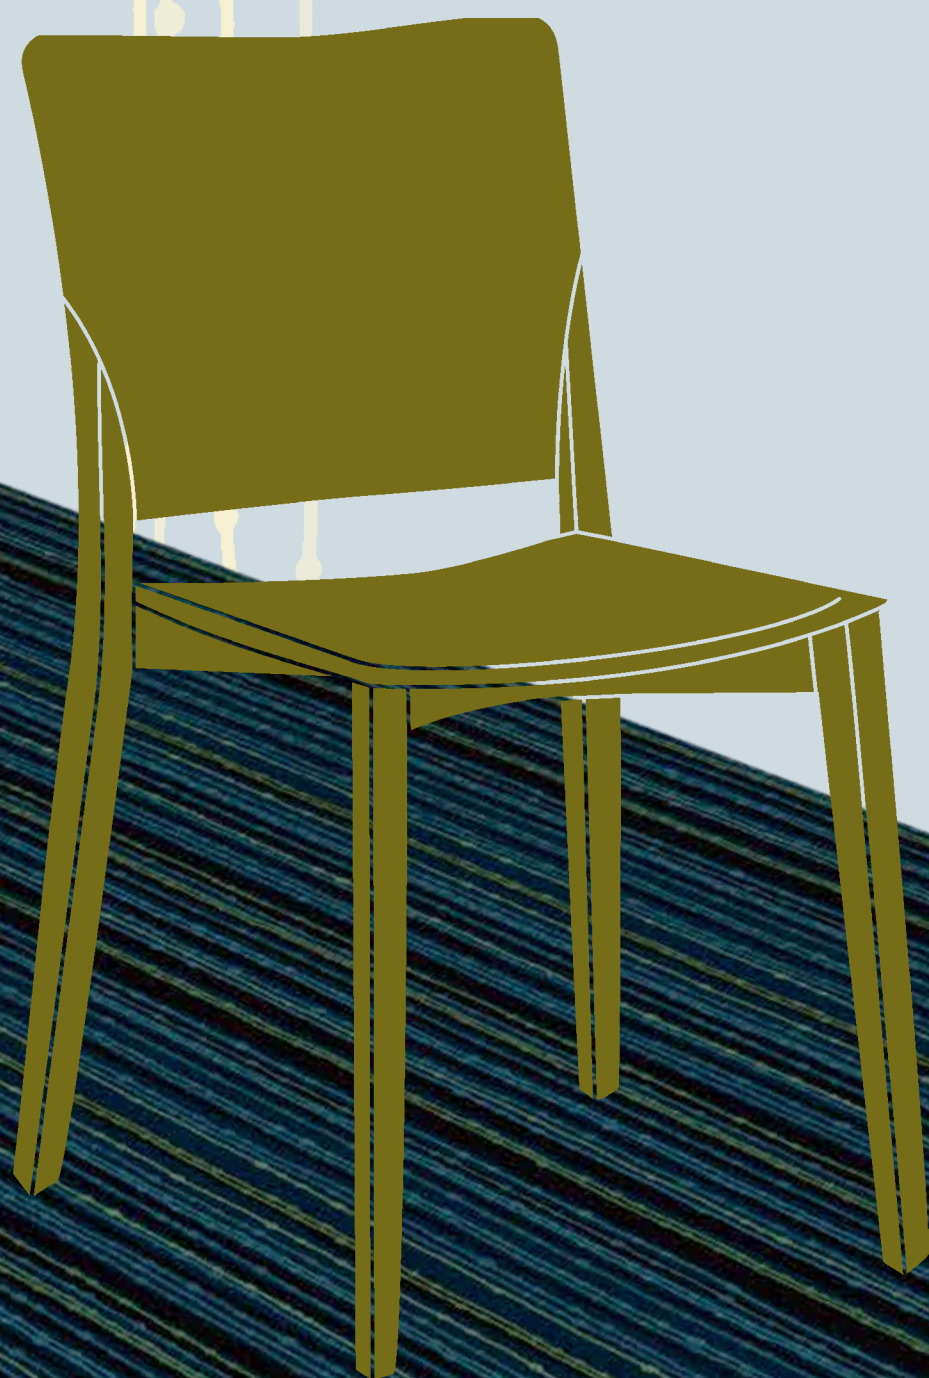

Standard colourways: Blue/green, orange/brown, stone/green, candy stripe, colour stripe

Scale repeat:	97.8 x 93.5 cm
Runner:	133.0 x 97.8 cm

Doodle

Take a pen for a walk and allow it to wander of its own accord! Random thoughts placed on paper whilst our minds were otherwise occupied have created this informal and obviously human pattern, with its wobbling lines of varying thickness and splashes of contrasting highlight colours – follow a line and see where you end up. Available in four beautiful colourways from luscious Deep berries to calming stone & moss plus corridor and runner designs.

Standard colourways: Deep berries, vivid blue, vivid green, stone/moss

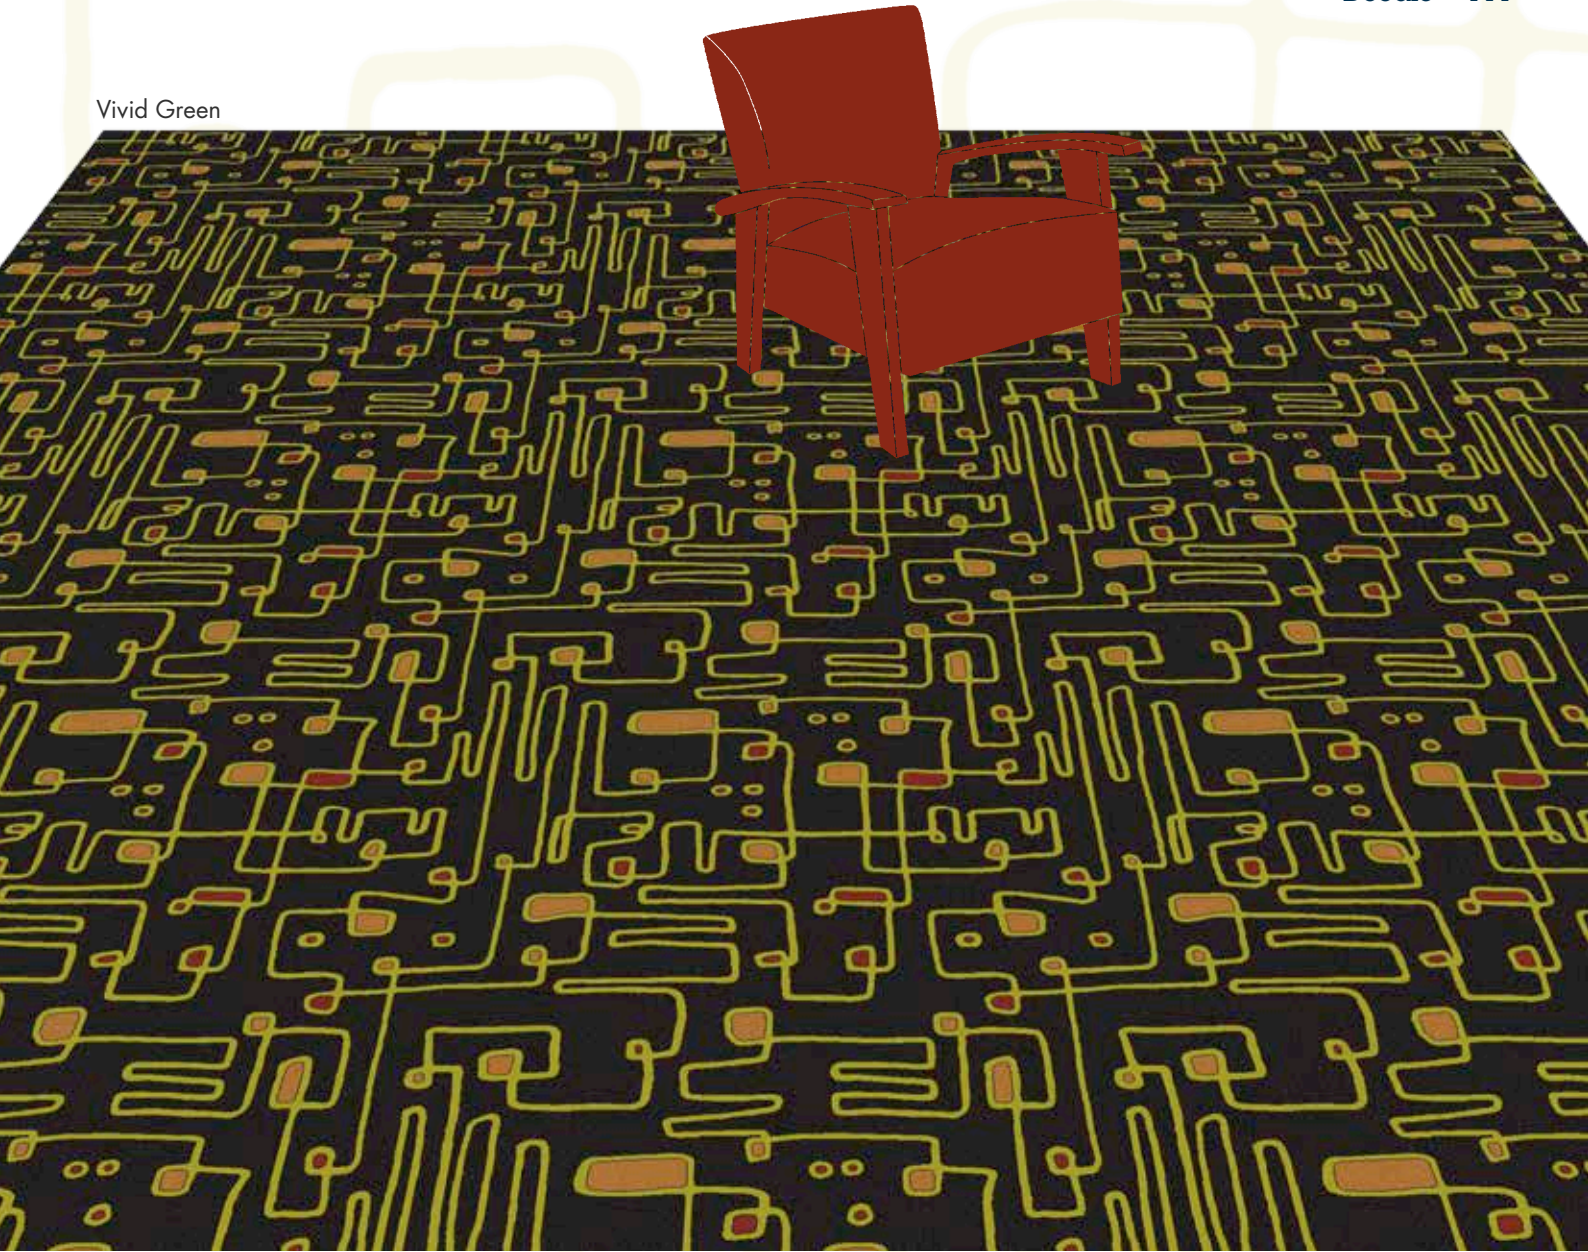

Scale repeat:	97.8 x 97.8 cm
Runner:	133.0 x 97.8 cm

Like fields after harvest, an abundance of motifs covers the carpet creating visual texture. This is a most effective pattern for creating interest and depth whilst not being overly imposing. The creative possibilities are multiplied by the availability of two tones per six standard colours; broad swathes of colour are used in the corridor and runner designs and also in the standard bedroom design which has been created especially for this pattern.

Standard colourways: Charcoal (light & dark), rust (light & dark), earth (light & dark), gold (light & dark), moss (light & dark) and ocean (light & dark)

Scale repeat: 55.9 x 55.9 cm
Runner: 133.0 x 391.2 cm
Corridor: 200.0 x 558.8 cm

Special design - (RF52201215 + RF52201216)

Emulating the ancient decorative art of the mosaic, the irregular squares of softly structured tonal colours work together to create a warm and inviting design. The subtle variations in colour creating an illusion of the texture and unevenness of the tiled floor. The availability of an impressive large scale and more delicate smaller version allows this pattern to be effectively used in a wide range of spaces. The bedroom designs as well as the striking corridor and runner designs create a pattern family, which we feel will be extremely valuable to any interior specifier. Mosaic is offered in three colourways.

Mosaic

Standard colourways: Green, deep red, deep blue

Small:	65.0 x 75.3 cm
Large:	130.0 x 152.4 cm
Runner:	133.0 x 1137.9 cm
Corridor:	200.0 x 1778.0 cm
Bedroom:	400.0 x unlimited

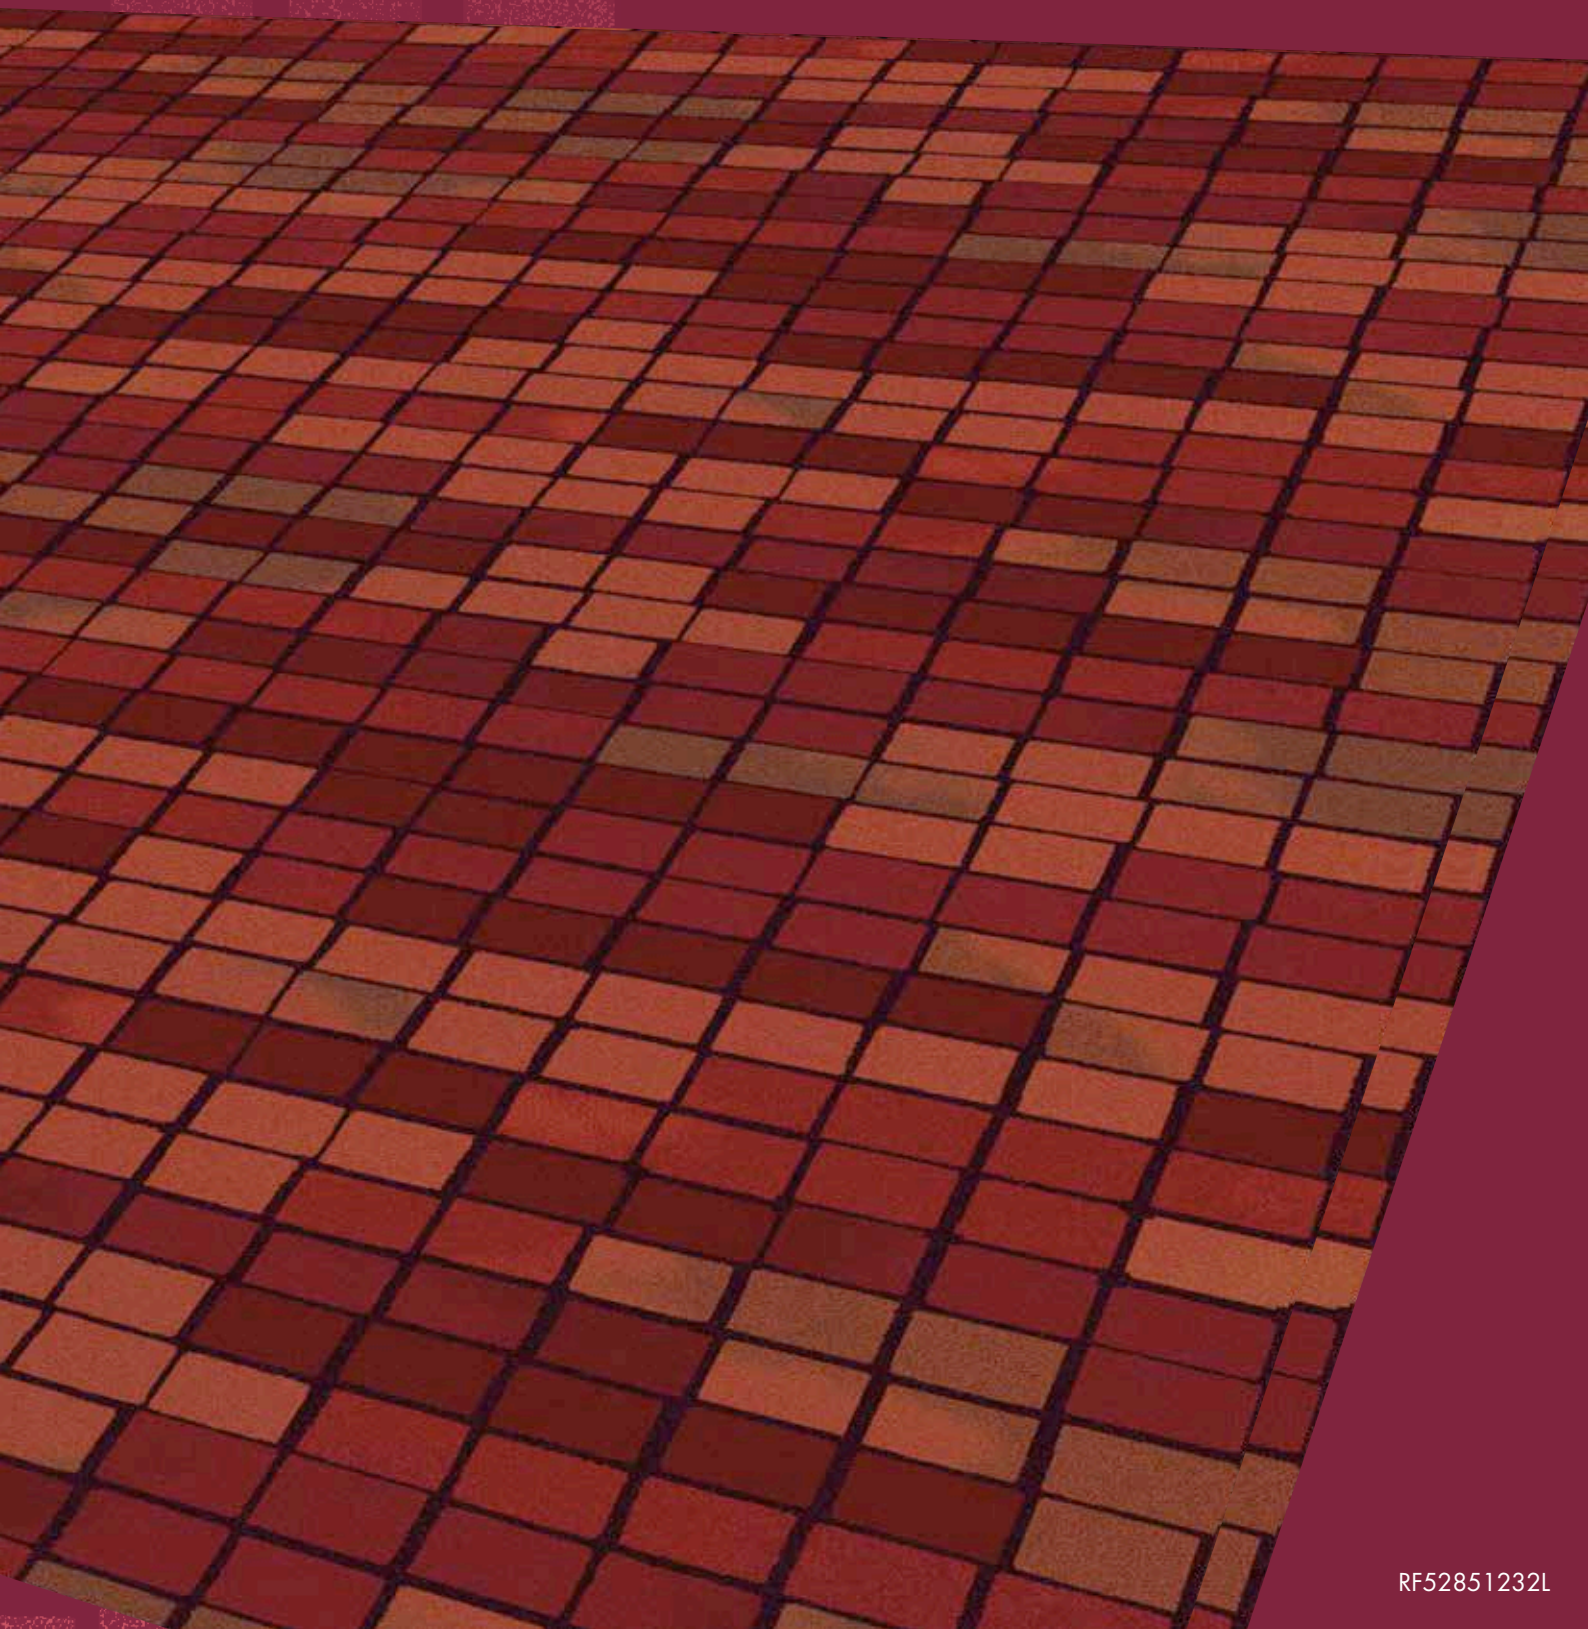

Bedroom design - RF52851233H - Hilton Copenhagen Airport (Showroom)

When recoloring the Mosaic design, please choose:
– ege Colour Shades for the natural shimmering look
– Basic and accent colours for solid tiles.

Star map is a lively, vivid pattern with a truly cosmic, almost 'Brownian' motion. Inspired by constellations of celestial bodies, it reflects the depth and complexity seen in the night sky.

This is further reinforced by the highlight design which consists of circular patches of lunar-like illumination. Star map is available in three sizes, from a small scale, with delicate lines and subtle dots, to a large scale, which is bold enough to truly fill any space. Corridor and runner designs are also available and Star map comes in four tonal colourways with dots of complementary highlight colours.

Star Map

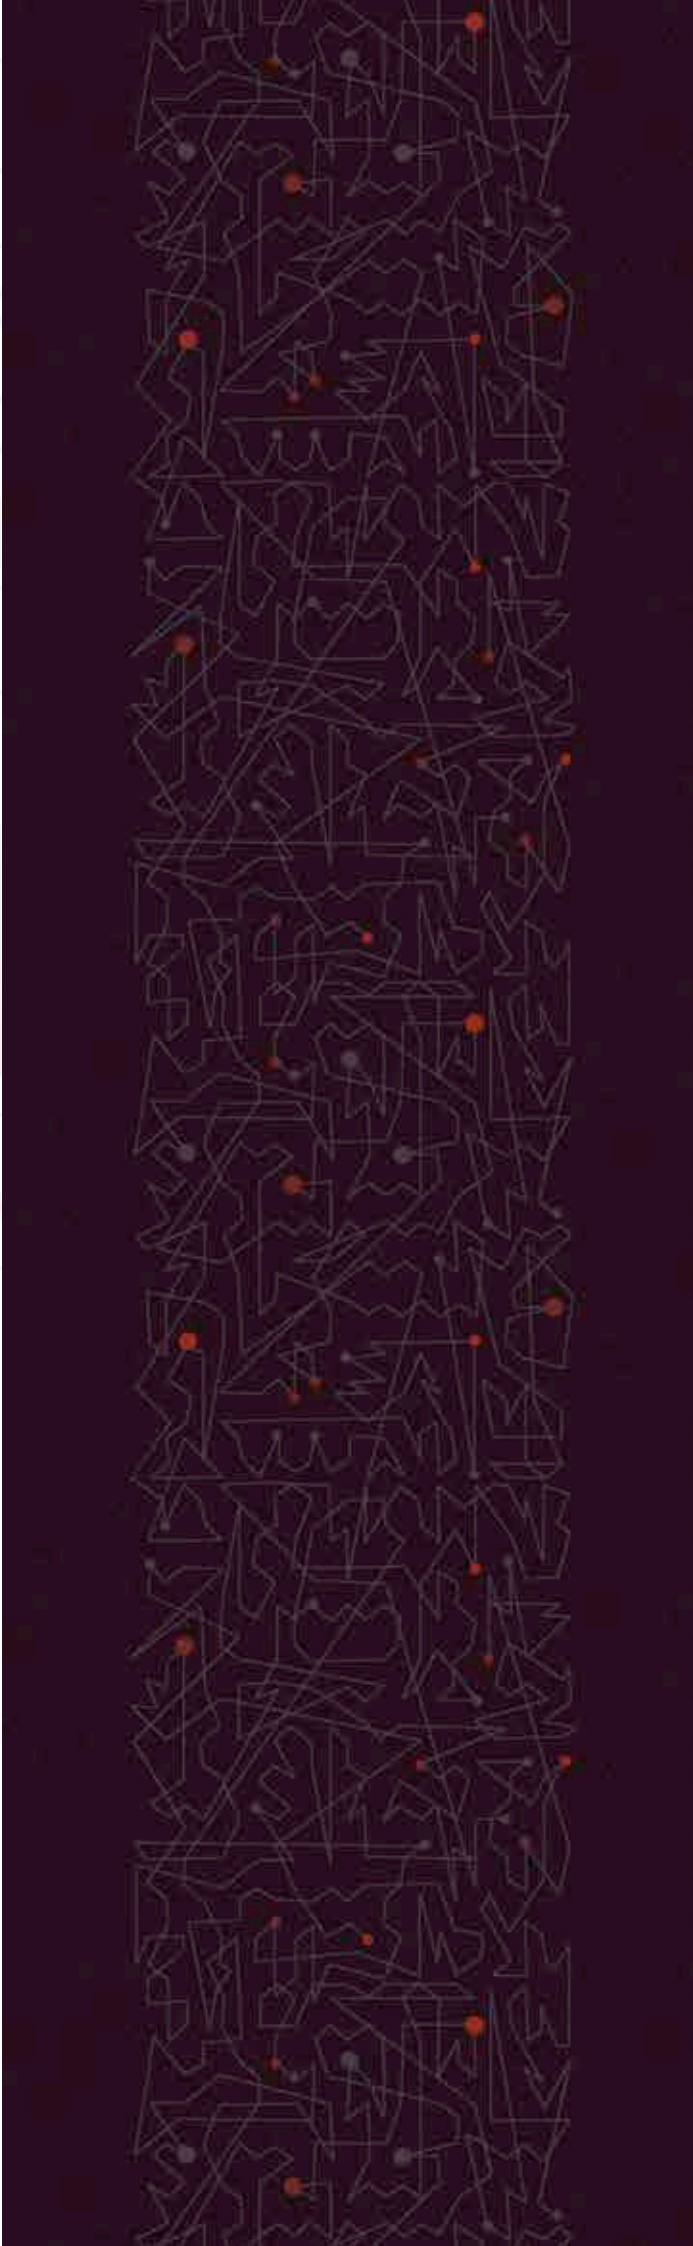

Standard colourways: Deep berries, green, charcoal, stone

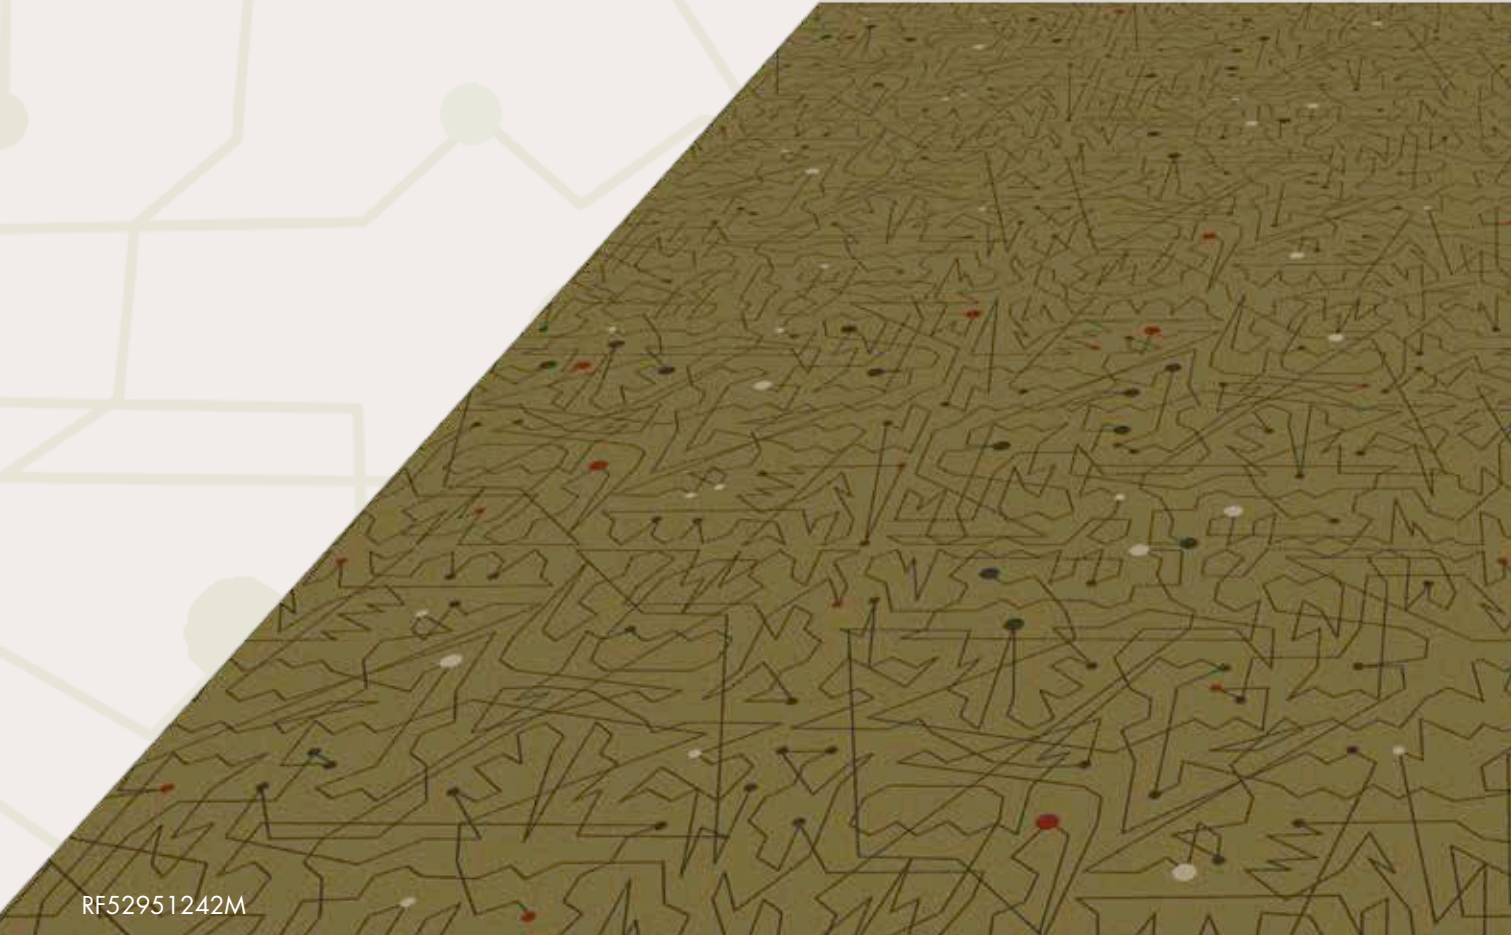

Small:	97.5 x 94.0 cm

Hand-sketched dots seemingly float above a softly structured background in this playful pattern. The regulated positioning of the dots is counterpoised by their hand drawn, irregularity, to give a warmly human pattern, which can be considered for a multitude of applications. In addition Sketch dot has an optional highlight design, with large, bold irregular dots in complementary shades placed under the overall pattern, ideal to create a focal point. Available in a five colourways, Sketch-dot is also available in runner and corridor designs.

Macro

Hustling, bustling forms jostle for space and seemingly vibrate in this vigorous, textural design. Once again the hand drawn origin of the pattern is evident, in a direct collaboration between the hand and the high-tech. Like walking on multiplying, bubbling cells under a microscope, this busy pattern is also extremely practical for use in areas of high traffic and demanding usage. Available in four colour options of tonal variations plus corridor and runner designs.

Scribble Stripe

Emulating the warmth and texture of wood grain and bark, Scribble Stripe is made up of sketchy lines of varying thickness in a choice of four tonal colourways or, alternatively, a wonderfully vivid version using colourful brights on a deep background for a lively, striking look. As with wood flooring, Scribble Stripe can be used to emphasise width and suggest direction but with the added advantage of the warmth, texture and insulating characteristics of ege's quality carpets.

A subtle variation from the traditional all-over pattern, Sparkle Line is simply available as a large runner/corridor design and smaller border design, both of which are effectively combined with solid colours for a stunning neo-traditional look. Coloured dots are scattered along a meandering line, appearing jewel-like against the deep majestic colours chosen for this pattern. Three colours are offered.

ege Colour Shades

– a textured colour harmony

In order to maximise the delicate colour harmonies and the rich textured look of the Visual Texture collection, ege has developed a brand new set of blended colours, the Colour Shades, for each of our standard colour keys: K5220, K5275, K5285 and K5295.

ege Colour Shades is based on micropatterns, which mix our basic colours with the well-known accent colours. This mix creates visual colour effects with different structures according to the colours used. The mix contains minimum 60% basic colours, which is why ege Colour Shades can be used in large areas.

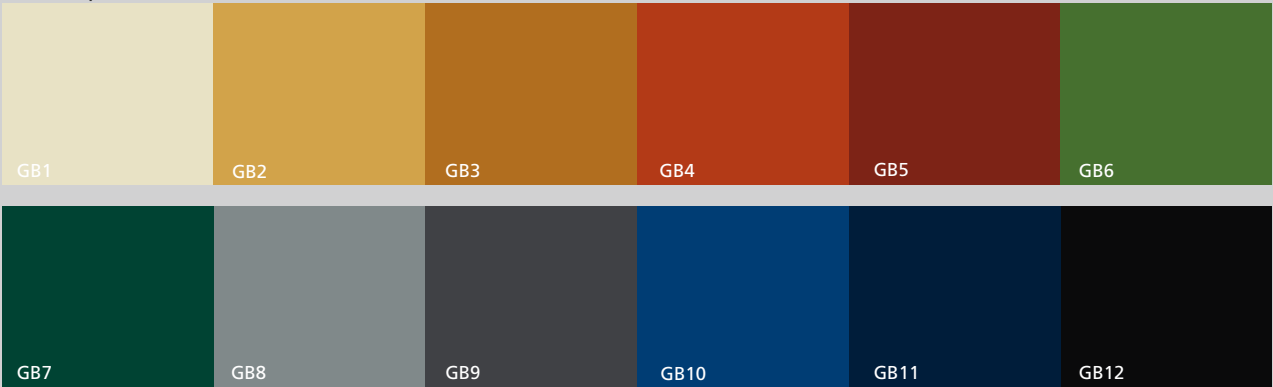

- The Visual Texture collection can be recoloured as usual with basic and accent colours, from the standard colour keys.
- ege Colour Shades can be used in addition to the basic and the accent colours shown on the standard colour keys and are only available for use in the Visual Texture design collection.
- ege Colour Shades can be used in any part of the design, even as ground or background colours in relevant designs.
- For larger areas approximately 0.5 m² or more, ege Colour Shades will take on an even richer texture.
- ege Colour Shades are not intended for use as plain carpets.
- ege Colour Shades are available for each of our standard colour keys.
Example: P75xxx relates to the standard colour key K5275 and so forth.
(Q75xxx is the richer texture of P75xxx)

To assist with your colour selection you can obtain samples of 'Colour Shades' from ege. These are available as 1 x 1 m sample pieces which show all the 'Colour Shades' in carpet format. One set of 'Colour Shades' is available for each of our standard keys and also on each of our carpet qualities except Highline 630. These samples can be ordered directly via your normal ege contact person.

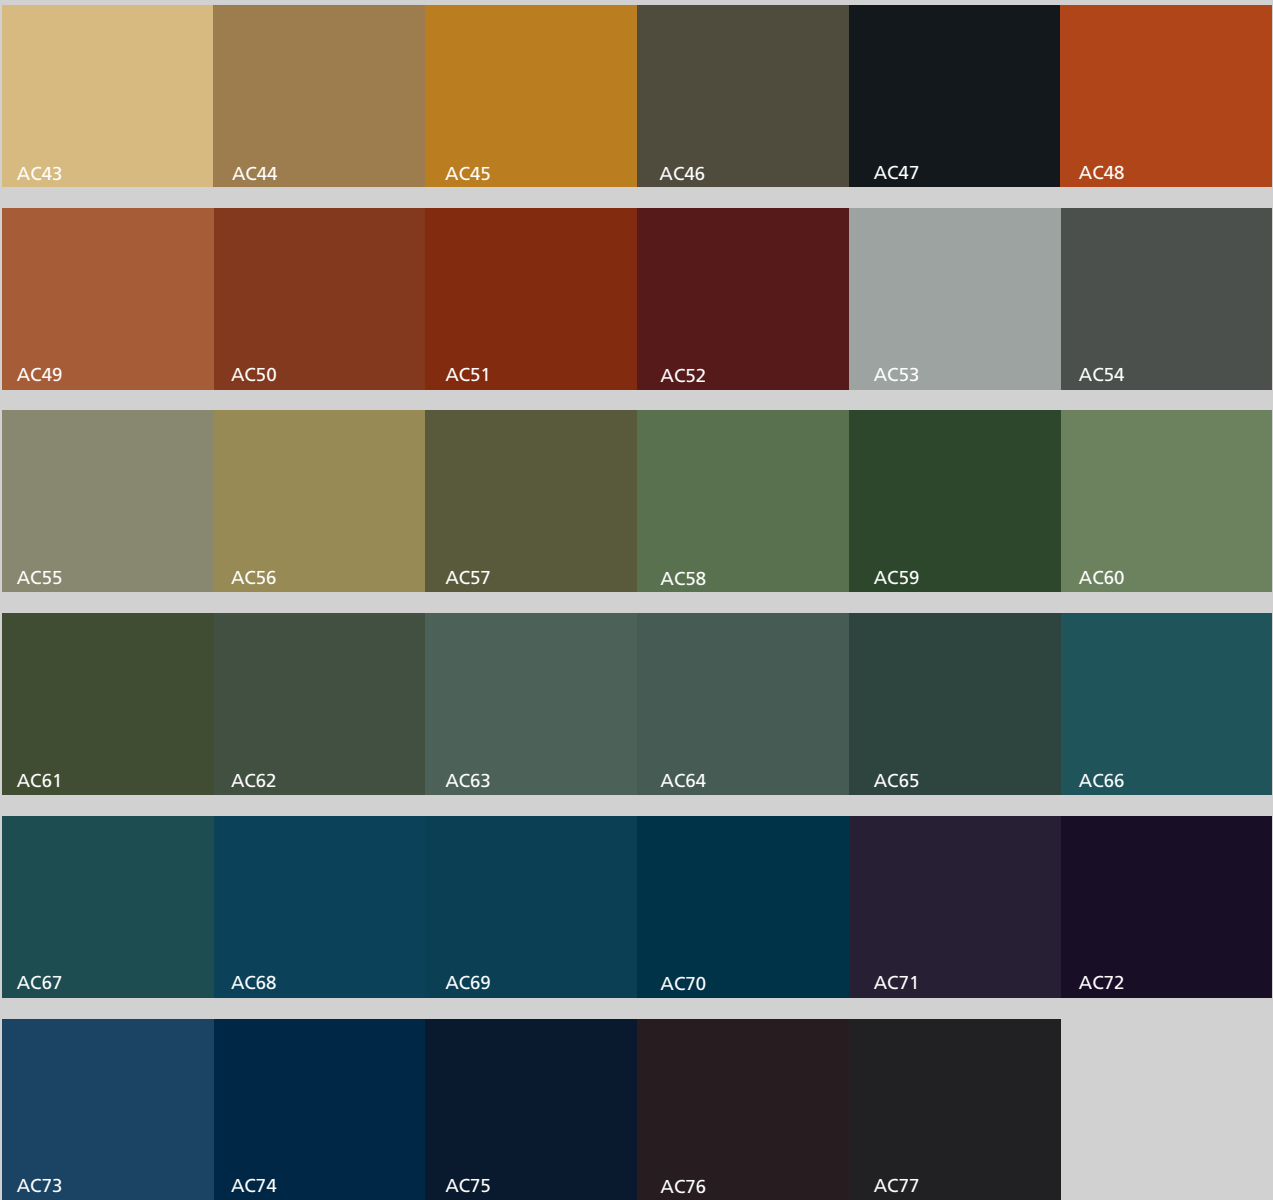

Visual Texture by Conran & Partners offers the widest colour selection of any ege collection launched so far. It is advisable to utilise the ege field design services to assist you with any recolourations of this collection, simply contact your local ege office for help.

We always recommend a 1 x 1 meter sample of your chosen design, so you can experience the full richness of the different textures in the collection before actual order.

Visual Texture by Conran is an indispensable design source for creating a supporting, subdued style or a space of vibrant and energetic colour combinations.

All this with:

- 27 design families in many colour variations
- Recolour options
- No minimum order requirements
- 7 standard qualities (see technical specifications p. 171)
- Undisputed performance standard - EN1307
- Use classifications to fit any need; heavy & extra heavy use
- 24 hours sample service
- Dispatch within 2 weeks from receipt of order

For every reference, where the pattern is available in multiple sizes, the sizes are distinguished by the last letter in the reference number.

Example: RFxxxxxxxS – where S indicates small design

S = Small design

M = Medium design

L = Large design

R = Runners - available in 133 cm width

C = Corridors - available in 200 cm width

H = Highlight design - for use as rug or as inspiration for special projects

Visual Texture by Conran ist eine unerlässliche Designquelle für die Schöpfung eines unterstützenden, gedämpften Stils oder eines Raums voller lebhafter, energiegeladener Farbkombinationen.

Zusätzliche Pluspunkte:

- 27 Musterfamilien in viele Farbausführungen
- Recolouring möglich
- Keine Mindestbestellmengen
- 7 Standardqualitäten (s. technische Spezifikationen auf Seite 171)
- Erfüllt die höchsten Anforderungen der Norm - EN 1307
- Verschiedene Gebrauchsklassifizierungen, um alle Ansprüche zu erfüllen, hohe bis sehr hohe Belastbarkeit
- 24 Stunden Musterservice
- Auftagsversand innerhalb von zwei Wochen

Für jede Referenz, wo das Muster in allerlei Grössen vorhanden ist, kann man die Grössen auf dem letzten Buchstabe in der Referenznummer unterscheiden.

Beispiel: RFxxxxxxxS – wo S "small" Design indiziert.

S = Small Design

M = Medium Design

L = Large Design

R = Runners - in 133 cm Breite vorhanden

C = Corridors - in 200 cm Breite vorhanden

H = Highlight Design - für abgepasste Teppiche oder als Inspiration für Spezialobjekte.

Visual Texture by Conran est une source de design incontournable pour la création d'un support au style maîtrisé ou d'un espace vibrant de combinaisons de couleur énergétiques.

De plus:

- 27 familles de dessin dans beaucoup de variations de couleur
- Recolorable
- Aucun minimum de commande
- 7 qualités standard (Voir fiches techniques o. 171)
- Standard de performance reconnu - EN 1307
- Classifications d'usage pour couvrir chaque besoin; usage élevé et très élevé
- Envoi d'échantillons dans les 24 heures
- Moins de deux semaines de livraison

Pour chaque référence, où le dessin est disponible dans des dimensions multiples, les dimensions sont distinguées par la dernière lettre dans le numéro référence.

Exemple : RFxxxxxxxS – où S indique un dessin Small

S = Dessin Small

M = Dessin Medium

L = Dessin Large

R = Runners - disponible dans largeur 133 cm

C = Corridors - disponible dans largeur 200 cm

H = Dessin Highlight - pour usage comme tapis or comme inspiration pour projets spéciaux.
