## The Concept of Themes

At M2CARPETS we've taken a different approach to Chromojet printing. Rather than show you fixed and restrictive colour palettes, we are going to excite and ignite your inner creativity with our new concept in carpet design.

What we offer is more definition, more colour, more flexibility, more variety and more efficiency. Feel free to read the "Our Story" brochure that perfectly explains our mission.

Showing you just how creative carpet can be we are presenting worlds of freedom using the latest in cutting edge Chromojet capability.
